

A versatile rotary saw blade with cutting speed like no other at an affordable price!

The **VentMaster Diamond** multi use blade is the perfect cutoff saw blade for Fire Rescue agencies, FEMA and USAR teams who must have a single cutting blade to handle multiple tasks.

The **VentMaster Diamond** will cut through almost any material:

- Concrete** Precast, reinforced, wet or dry cuts
- Steel** Doors, locks and auto bodies
- Iron** Pipes and security bars
- Brick** Hard, medium and soft
- Block** Concrete and stone

Will also cut **Fiberglass, Aluminum, PVC,**

Features and Benefits of the VentMaster Diamond

SPEED! VERSATILITY! LONGEVITY! AFFORDABILITY!

- 14" blade cuts up to 5.5" deep without depth reduction during the life of the blade.
- Premium grade diamonds ensure quicker cuts and a longer blade life.
- Vacuum-braised technology used to fuse diamonds to blade segments for strength and performance.
- Thicker, sturdier blade core for greater durability also has cooling holes and slots to prevent overheating.
- Fits any brand saw with 1" arbor (20mm bushing included).
