The Greatest Show on Earth! FDIC 2005

Indianapolis, Here We Come!

Are you ready for another great adventure? FDIC 2005 is rapidly approaching and Tempest is charged up and ready to go!

We have some exciting things planned for this year's show. We will be debuting our New Tempest Fire Ventilation and Rescue Products Catalog. Packed with detailed information and specs on all our Tempest Blowers, Mobile Ventilation Units, Saws and more. Come by booth **#3502** and pick up a copy.

What about new products? Come by and see what we have new for 2005. It is all part of what's hot! New Catalog, New Products, New Look!

April 1, 2005

Are You Ready to Play the Ventilation Game?

This year, Tempest is playing "**The Ventilation Game**", which is a fun way to learn more about Tempest products while earning the chance to **Win a Personal DVD Player!** There will be one winner daily during April 14-16. For game details and how to play, see below.

To play "**The Ventilation Game**", get a game board from any Tempest Team Member in booth **#3502**. Each game board is comprised of four product categories. The categories are **VentMaster Chain Saws**, **Tempest Variable Speed Electric Blowers**, **Mobile Ventilation Units** and **VentMaster Cutoff Saws**.

To complete the category and advance to the next space players must get the "Five Key Reasons to Purchase" the product in that category. Tempest Sales Team Members will be on hand to provide the "Five Key Reasons to Purchase" to players. All four categories must be completed to fill in your game board. Once your game board is completed, turn it in and be entered in a drawing to win a personal DVD player. There will be one drawing held each day from April 14-16. The winner will be drawn from the group of players turning in their game boards for that day. Only one entry per player will be accepted.

Don't miss this great opportunity to learn more about Tempest Ventilation Products and the chance to **Win a Personal DVD Player!**
